ROURKE LOSES NOMINATION FOR FRANKLIN SUPERVISOR

M. C. GETCHELL DEFEATS HIM BY VOTE 39 TO 32—OTHER CONTESTS.

For supervisor of Franklin township, M. C. Getchell defeated Supervisor Rourke, 39 to 32, at the caucus last night. Ed. Shields won the nomination for treasurer in a three-cornered race against William K. Ryan and William Grosholz. Ale Ople defeated William Vial and Daniel Dowd for commissioner of highways, and Michael Sheehan was nominated for overseer of highways against Matt Jacobson, 50 to 21. The other nominations were unanimous.

The vote for treasurer required three ballots although Mr. Shields had a majority vote at all times. Out of 71 votes, Mr. Shields received 25 on the first ballot, 11 on the second and 4 on the third.

Ople received 41 votes. Vial got 15 and Dowd polled 12 for commissioner. Captain Kendall was chairman of the convention.

Supervisor Rourke placed his own name in nomination, making a few preliminary remarks as to why he thought himself entitled to another term.

After all nominations had been made, Mr. Rourke announced he would be a candidate at the polls for election.

Mr. Getchell in thanking the delegates for their support said there would be opposition at the polls to the regular ticket and the opposition would come from the Socialists, that under these conditions he hoped the voters would turn out. Mr. Rourke objected to Mr. Getchell's statements, saying the nominee owed the convention an apology, also the Socialist party. Rourke then defined what it required to be a Socialist.

"If I owe this convention an apology, I am ready to make it," said Mr. Getchell. "It was proven conclusively by the congressional investigation that the Western Federation of Miners is a Socialist organization. For several days there has appeared in the Federation store a ticket representing candidates for office in Franklin township, the ticket being headed the la-

bor ticket. There can be one inference only drawn from this."

The ticket nominated last evening will be known as the nomination ticket and follows:

Supervisor—M. C. Getchell.
Clerk—Frank Jacobson.
Treasurer—Ed. Shields.
Commissioner of highways—Ale Ople.
Overseer of highways—Michael Sheehan.
Justice of peace (full term)—James Williams.
Member of board of review—Alexander Lahti.
Constables—John Polakaze, Chris Stuchin, Joe Vanstraff and Andrew Karapinen. These nominations represent the four precincts.

NOT AIR BLASTS.

It is Believed Shocks Felt Here Are Slight Earthquakes.

Following the shock of yesterday morning, some excited correspondents wired the outside world that the copper country had suffered an earthquake and as a result inquiries came in from the press in a large territory. However, the damage was negligible.

General Manager Lawton was asked as to the effect in his mine and he said that the shock has caused some ground to fall, to the extent that No. 2 shaft, where the shock of Wednesday was felt, temporarily out of commission.

"I do not believe these shocks originate in our mine," said Mr. Lawton. "We feel them of course but I believe they originate in some way not connected with mining at all. There are no conditions underground in the Quincy that possibly could result in such shocks as far as we can learn."

Weather observer Howard R. Cowdick says that the weather bureau experts have a theory of the cause of explosions in coal mines, which may apply to these explosions. The latest experts believe that the coal mine explosions are the result of a sudden drop in barometric pressure and Mr. Cowdick observes at least a remarkable coincidence.

The barometer in his office showed a sudden drop Tuesday night, an unusual drop. The blast of Wednesday morning may have been the result of this. The barometer had been very erratic up to yesterday morning, when the second blast occurred.

The weather bureau is about to begin a series of observations in coal mines and may extend them to the copper country and there is a possibility that a real explanation of air blasts will result.

KATHLYN PICTURES PLEASE.

Large Crowds Attend Orpheum Theatre to Witness Big Feature.

A large crowd gathered in front of the Orpheum theater last evening long before the doors of the playhouse were opened. The attraction was the third installment of the motion pictures of the "Adventures of Kathlyn." The theatre was crowded for both performances and also for the matinee given yesterday afternoon for the benefit of the children. Since Manager Noonan has secured the privilege of exhibiting these reels much interest has been created among his patrons and many are anxiously awaiting the arrival of the fourth installment.

An interesting program is being shown at the Orpheum this week and the pictures are excellent. Two vaudeville acts are also included in the bill, the feature being the Seven Ruzsels. In this act there are seven people, all of the same family, who perform some wonderful feats.

LYNCH VERDICT AFFIRMED.

Supreme Court Upholds Action Taken by Houghton Circuit Court.

In the list of recent supreme court decisions appears the one of Lynch versus the Val Blatz Brewing Co., the verdict awarded in favor of Mr. Lynch in the Houghton county circuit court some time ago being affirmed.

Suit was brought by Mr. Lynch several months ago against the Val Blatz company for a year's rent, he claiming that the company had failed to live up to its part of the agreement entered into by himself and the company. A lease was taken from Mr. Lynch on the Polky property on Tecumseh street for three years, the building being used for saloon purposes. A clause in the lease stated that in case the city council did not grant a license for the sale of liquor in the building during the period of the lease the company would not be responsible. It was contended by the plaintiff that the company had made no attempt to secure a license for the building at the expiration of the first year and Judge O'Brien awarded a verdict in favor of Mr. Lynch for \$300 for rent. The case was then carried to the supreme court.
